CARLOS BEE; HIS RECORD

SAN ANTONIO, Texas, July 23, 1918.

TO THE VOTERS OF NUECES COUNTY:

The campaign is about to close. I have made a clean, impersonal presentation of my merits. My opponents have not treated me with the fairness I deserve, but have circulated a report that my candidacy was without hope, with the intent of injuring me. This is to state to you that I am in the race until the last ballot is counted, with every confidence as to the result. I have filled various offices, and have proved faithful to every public trust. I am not a prohibitionist in one end of the district and an anti-prohibitionist in the other, but have kept my course consistent. I have not always been for woman suffrage, but gave it my support in the Legislature in the last special session. Mr. Barrett, one of my opponents, is presenting his life-long support of woman suffrage, but he produces no record to sustain it, in spite of the fact that he was a member of the State Senate for eight years. I am the author of the 54-Hour Law for working women; the joint author of the Compulsory Education Law, the Child Labor Law, the Rural High School Law, the Kindergarten Law, the Semi-Monthly Pay Law, the Hospital Law, giving recognition to employees in railroad hospitals, and various other measures of this kind. Were my opponents for these measures or not? The record is silent. When I introduced the Minimum Wage Bill in the Senate of Texas in order that working women might receive a living wage and be paid the same as mea, my opponent, Mr. A. P. Barrett, appeared before the Committee on Labor, in Austin and fought the bill, contending that these working women were getting enough money, and did not need any

Who, therefore, is a friend of the working women? I have ascertained that a series of slanderous reports have been circulated against me. I cannot reply to them in detail except to say that they are lies, and known to be lies by those who circulated them. I am a consistent supporter of Woodrow Wilson and his administration, and expect to be in harmony, if elected. I shall not set my judgment up as an obstructionist. I have wished to give my help to the winning of this war, and the destruction of autocracy and the triumph of democracy. I haven't the means to conduct the kind of campaign my opponents have, but ask the support of all the men and women of this District upon my merits, and upon my promise to be your faithful public ser-

(Signed)

CARLOS BEE.
